Gould's Old Stand, Pierce Street W.

Here a road is so heavy that a team cannot pull more than half a ton, in addition to the weight of the wagon, it costs more to haul a load of wheat 12 miles from the farm to the railway than it does to ship the same wheat from Edmonton to Liverpool! Nonsense? Just figure it out and see.

The Alberta farmer hauls his grain to market just as cheaply and easily as the farmer in Iowa, Nebraska, Kansas, Indiana, Illinois, or elsewhere, where they have been building roads for half a century. The country roads in Alberta are no better and no worse than they are in the states named. In some states they are beginning to do some attention to road building and some excellent turnpikes have been constructed. But the old, deep mud roads are still in the majority, crippling the farmer's pocket book, crippling his horses and ruining his chances of redemption.

A team of horses and driver will cost \$5 per day. They can haul a load of grain on any railway dump or platform. To haul a load 12 miles to market on a bad road in 5 days would mean a team of horses should be able to handle half their own weight on an ordinary firm road. In reality they haul more. It has been demonstrated that if a 3,000 lb. team can haul 2,500 lbs. on an ordinary country dirt road, they can pull three times as much on a macadam road. It is estimated that the average cost of hauling a ton one mile on an ordinary country road in good condition is 25 cents, while the average price of hauling one ton one mile on the rail roads is three-fourths of one cent. That is a saving of 24 cents a ton. That is a saving with team and wagon as it is with team.

But let us get back to Alberta. Supporting a farmer brings in half a ton of grain in one load. These roads are bad. It will take him a whole day to make the trip if he lives 12 miles from market. Assuming that he and his team get worth \$5 per day, it costs him 50 cents per hundred to haul in his grain, half a ton at a time. This does not include the cost of his meal in town or the keep of his team. An extra half dollar should be added for that. For less than 25 cents per hundred which can be shipped from Edmonton to Liverpool. It costs 25 cents per hundred from Edmonton to Fort William and 15 cents per hundred from Fort William to Montreal. The ocean freight rate varies from four cents upwards, so there is quite a margin to spare.

If the farmer can haul a ton at a time it costs him 25 cents to haul in his grain 12 miles as it does to ship from Edmonton to Fort William. But he cannot haul a ton all the time. There are times when the roads are so heavy that a good team cannot draw much more than an empty wagon.

There are other considerations which enter into the estimate of cost. Although they are not so tangible as those stated. How valuable cattle are lost every year because the hearts of their dams are pulled out on heavy loads? How many good horses are crippled through having the life hauled out of them? Then we might figure on the added wear of wagons and harness due to heavy roads. These considerations cannot be put down in dollars and cents, but they are considerations just the same.

When the roads are good enough for one man to haul to market, they are good enough for all, and everybody hauls at the same time. The result is that the markets are glutted and prices are depressed. This is an inevitable happening. If the roads were bad that the farmers could haul to market any day in the year, better prices for far would be obtained. When the roads were bad following the recent rains potatoes went up to 75 cents or bushel. The farmers could not haul potatoes to market. So soon as the roads improved, everybody began to haul and down went the price of the potato.

action brought by Alfred Howes to
constrain W. R. Clarke, J. K. Cornwell, W. Minty, the Alberta and
Great Waterways Co. and the Cana-
da West Construction Company, an-
the Athabasca Railway Company, was
pleaded by F. D. Byers in the supreme
court last week.

In the defense, Mr. Clarke denies
the charges in toto and places the
burden of proof in the hands of the
plaintiff. He denies all knowledge of
the original Athabasca syndicate, and
says that the plaintiff has no claim
or part in the Alberta and Great Wa-
terways company. Minty, he says,
was simply retained by him as his
collector and has no part in the Atha-
basca railway syndicate.

He and some other persons were
concerned in the arrangements for the
guaranteeing of the bonds of the Al-

and that Mr. Cornwell was not con-
cerned in the matter.

A Bachelor's Honeymoon

In "A Bachelor's Honeymoon," the
management of the Dreamland The-
atre on Tuesday evening presented one
of the most enjoyed items which had
ever appeared at the local play house,
and the large audience were given
such an opportunity for a laugh as
has seldom been afforded local play-
goers. It is almost sufficient how-
ever, to say that it is one of Hoy's
successes, and by no means the least.
There is no plot and none is needed,
for from the call of the curtain till
it drops on the last scene the ridicu-
lous complications interwoven with
the honeymoon of a man who has mar-
ried an actress with many lovers, the
former of whom is the rather ugly
possessor of a most precise and straight
laced sister and two grown-up daugh-
ters, are responsible for a con-
tinuous jollity of the side splitting
variety. The company is an excep-
tionally good one. Miss Rose Al-
worth taking the part of the new
wife with considerable ability, and
Mr. Wilson, as Benjamin Bechley, the
husband in the case, showing a good
humor under the burden of his domes-
tic troubles, Chas. A. Williams as
Dr. Ludwig Schwartz, one of the sol-
diers for the much-sought Jono A. Je-
kile, was seen in good advantage, while
other members were equally entertain-
ing.

A request was made by A. M. Wal-
rener, assistant clerk, for an increas-
e in salary. Higgs—Angus—That M.
Walrener's salary be increased \$10 a
month from Nov. 1st 1910. Car-
ried.

Letters were received from B. R.
Chandler, consulting of the action
of the medical health officer, and from
the doctors and medical health officer
re the matter of scarlet fever. On
motion of Higgs—Wagner—That the
matter be referred to the health and re-
port committee for investigation and
report. Carried.

C. S. Maharg, requested the city to
furnish him with the consent of the
Calgary and Edmonton Land Co.
to run the proposed industrial spur
through their property. Higgs—An-
gus—That city clerk be authorized to
obtain consent from the Townsite Co.
as requested. Carried.

The C.P.R. also requested \$12,000 as
payment on account of spur track. It
was moved by Olin—Higgs—That the
railway company be informed that the
council cannot see its way clear to
pay the \$12,000 until the plans have
been completed and consent of rail-
way company obtained. Carried.

The following report from the fire
water and sewer committee of water
rates was adopted on motion of Olin.

WESTBANK

British Columbia

The Dream in Reality of Orchard Homes

Secure a home in Westbank, in the famous Okanagan Valley—the home of the big red apple, the luscious peach, and that peer of vegetables, the rich, red, ripe tomato. The climate is the mildest, in Canada—always sunny and cheerful, bright, balmy, bracing, exhilarating weather. Westbank, "the Orchard Homes" of the Okanagan Valley. Boating, Bathing, Shooting, Hunting, Fishing, Camping, etc. Own a home in the land of opportunity, of pleasure and ease—a home in the heart of the greatest fruit growing district in Canada. We have improved and unimproved fruit lots, young and bearing orchards, any acreage. Prices \$175 an acre and up. Reasonable terms. Special inducements to colonization companies and men of capital seeking safe conservative investment, one that will yield big profit.

A few of the greatest fruit lot opportunities in Okanagan Valley

"The Springs"

TWO 25 ACRE LOTS—500 fruit trees, most of them bearing, consisting of peaches, apples, cherries, pears, etc., also small berries, clover field, beautiful front, excellent view, good springs. Large portion of this land is in the highest state of cultivation. Soil a deep, rich, loose loam—the kind that will produce the heaviest tonnage of fruit and vegetables. Ideal homesite. Price \$7,000 cash, terms 13 cash down, balance in equal annual payments extending over four years.

FOUR OR FIVE EXTRA CHOICE YOUNG ORCHARDS in five acre blocks in classiest part of Westbank, next to townsite, level, excellent view, overlooking townsite and beautiful Okanagan lake; best varieties of fruit trees, consisting of apples, crab apples, cherries, plums, prunes, pears, quinces, apricots, etc., etc. Price only \$2,000 cash; terms only \$500 cash down, balance \$500 in payments at intervals of six months.

LOT NO. 28, near Westbank townsite, ten acres; 400 apple trees 1 year old; 100 apple trees, 50 cherries, 50 pears, 25 peaches, 25 apricots, 100 grape vines, ordered for next spring planting, to go with place. House 15x24 with back kitchen

attached 12x14. Extra choice level lot. Price, \$4500, 1-3 cash.

UNIMPROVED 10 ACRE LOTS under irrigation system. Price \$175 per acre; 1-3 cash, balance 1, 2 and 3 years.

OTHER VERY VALUABLE LOTS, cleared or partly cleared, from \$200 per acre up.

IF YOU CANNOT INSPECT THE ORCHARD HOMES OF WESTBANK NOW, DO NOT DELAY BUYING ON THIS ACCOUNT. We will make the best possible choice for you, and look after the improving and managing of your purchase until it comes into bearing. Estates managed strictly free, and all improvements done at an exact cost to you. Here is an opportunity for you to make money honestly, legitimately, benefiting yourself and building a home for yourself at the same time in the most ideal climate and locality in Canada.

There is Gold in Okanagan Valley
British Columbia
Fruit Lots

A front lot will make you independent, quickly and surely.

Remember
WE HAVE NO LONG COLD WINTER IN THE OKANAGAN VALLEY. Intensive farming pays better there than extensive farming does on the prairies. A larger net fruit can be realized from 10 acres in the Okanagan than from 320 acres on the prairies. Live in out of the rain, the sleet and the snow, away from the cold winter winds that blow over the prairies, east of the Rockies.

Come to the VALLEY where life is worth living. Come to the California of Canada. The work is easy, clean, cliffing, and of short hours.

Fruit growing the most profitable and delectable occupation on earth. There is only one crop of land in the Okanagan Valley. It is going fast. NOW IS THE TIME TO BUY. Get in on the ground floor. Buy before prices are higher. DON'T DELAY. Now is your opportunity. Be honest with yourself, WRITE AT ONCE FOR PROSPECTUSES, MAPS, PRICE LISTS, etc., to the Hitchner Bros., they will call on you and talk it over.

COMPARISON WITH MAIL ORDER PRICES

It should be of particular interest to the retail trade to note the following comparison between a Saskatchewan merchant's prices and those of a large catalogue house. On a date recently the Saskatchewan dealer referred to was presented by a customer with the following order, copied from a well-known catalogue, to be filled if he could fill it as cheaply as possible:

1 pint Syrup, 20 lbs.	1.00
1 box Soda Biscuits, 16 lbs.	1.25
1 sack Hulled Oats, 20 lbs.	.55
10 lbs. Raisins, 8c. per lb.	1.60
10 lbs. Prunes, 8c. per lb.	.80
10 lbs. Currants, 10c. per lb.	1.00
12 lbs. Tapioca	.75
3 lb. tin Baking Powder	.50
1 bottle Vanilla	.10
20 lbs. Sugar	2.50
3 pkgs. Corn Starch	.27
10 lbs. Peaches, 11c. per tin	1.10
1 crate Onions	2.20
50 lbs. Salt	.45
1 lb. Tea	.40
5 lbs. Coffee, ground, in tins, 5c. per tin	1.25
1 box Herring	.25
3 tins Catsup, 10c. per lb.	.30
1 case Tomatoes	2.55
Total	\$19.50
Shipping weight, 352 lbs. freight 3.00	
Money Order 10c., postage 2c.	.12

Total cost from Mail-order house

22.71

The counter slips of the country merchant show that he filled the order with goods of known quality at his regular price for \$21.90. This was a saving of 81 cents to the customer. In addition to this it should be noted that the customer saw the goods before buying, he did not have to pay in advance, he did not have to wait ten days for the goods, he did not buy more than he needed, he got branded goods that he knew and he the privilege of returning anything that he wished. Above all this he saved money, and kept his money and trade in his own town.

If the country merchant can do this on groceries, where profits are small, is it not reasonable to suppose he can do it on other lines? Every dealer in the country should present this case to the farmer and others for their consideration.—Commercial.

STAY ON THE FARM

They told me today that you were thinking about leaving the farm. Don't do it.

Stay where you are. You said you were going to the city where there was something to be seen, where there wasn't so much work, where there was more fun.

Stay on the farm. You are the most independent fellow on God's footstool.

You have no time clock on you, you have no crowded workshop. Your workshop is the broad acres, where you are in partner with the infinite, in league with the sun and the seasons. True, your clothes may not be of the finest, but they are paid for and that is more than a lot of those dudes of the big cities can say.

Stay on the farm where the friendships are true, and the work is healthy.

Stay on the farm. Many a young man who has gone away to the big cities is at this moment looking back to the old home, to the old spots of his childhood, and wishing that he had never rambled. He rises to listen to the din of the dismal day. You rise to hear the winds whisper sweet music over broad acres.

He rises to see a row of houses across the street, a row of sheds behind. You rise to see nature and nature salutes you as she is: "The wind kisses you on each cheek. Young fellow stay where you are on the farm."

As you sleep the crops ripen, as you sleep the stock fattens, as you sleep—What other man is so fortunate? Exchange.

AWAKENING OF SCIENCE

TO THE VALUE OF FRUIT

What is "FRUIT-A-TIVES"?

Medical men are just beginning to realize the possibilities of fruit in curing disease. Its action on the liver, kidneys and skin is wonderful. Yet fruit in its raw state is impracticable in treating disease because of the minute quantity of the active or curative principle contained in fruit juice.

A physician in Ottawa, after years of patient work, discovered a process, whereby the medicinal or bitter principle of fruit juice is increased in quantity and thus a more active and more valuable substance is obtained.

"Fruit-a-tives" is the only medicine in the world made of fruit. Hundreds of prominent people in every section of the Dominion owe their good health to "Fruit-a-tives." Hundreds more are daily becoming stronger and better by taking them. "Fruit-a-tives" is daily proving its inestimable value as a natural cure in all cases of Constipation, Biliousness, Torpid Liver, Backache and Headache, Neuralgia, Rheumatism, Kidney and Skin Troubles.

Get a box, 6 for \$2.50, or trial box, 25c. Sold by all dealers, or sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

AS MAN TO MAN

A private soldier, anxious to secure a leave of absence, went to his captain with a most convincing story about a sick wife breaking her heart for his presence. The officers, as fascinated with the man's habits replied: "I am afraid you are not telling the truth. I have just received a letter from your wife urging me to keep you away from home, because you get drunk, break the furniture and mistreat her shamefully."

The private smiled, and started to leave the room. At the door he paused, asking: "Sir, may I speak to you, not as an officer, but as man to man?"

"Yes, what is it?"

"Well, sir, what I'm after saying is this—approaching the captain and lowering his voice: "You and I are two of the most ill-fated lads the Lord ever made. I'm not married at all."—Lippincott's.

IN THE WINTER EVENINGS

Threshing and the hurry of the farmer's life will soon be over and the long winter evenings will be here. Now is the time to begin considering the question of organizing or re-organizing the literary or debating society for the winter season. Now, while the young folks rather at the threshing, is the time to start the ball rolling. If the old officers are still in the district it is a good time for them to get together and discuss arrangements for the first meeting of the season. If there has been no society before, why not one this winter? It is a good thing for the young folks of a country settlement. Many of them have had to leave school too early to take up the burden of life and the literary and debating society enables them to secure considerable education which they would otherwise miss.

If the farmers are to hold their own in the legislative assemblies of our land they need to be trained in the art of public speaking. Nothing can better the rural literary and debating society for this. Then, besides, the programs can be made a means of profitable entertainment at less cost for them to get together and discuss arrangements for the first meeting of the season. If there has been no society before, why not one this winter? It is a good thing for the young folks of a country settlement. Many of them have had to leave school too early to take up the burden of life and the literary and debating society enables them to secure considerable education which they would otherwise miss.

city. All it needs in a settlement is a few to break the ice at the start and call a meeting of those interested in the educational welfare of the district.

BITTERN LAKE

The friends of Mrs. Thos. Ambler are pleased to learn that she is progressing as well as can be expected. She has been suffering from rheumatism over a week.

Mrs. W. H. Leach is in Wetaskiwin taking care of her mother, who is under the care of the doctor. We are all delighted to know she is getting better and is able to sit up.

We want to say a good word for the man who meets his small obligations promptly. They are not as plentiful as they should be and the man needs encouraging. Most men will pay, but fewer will pay promptly. Almost any firm will testify that counting the time, postage, booking, and the like, it costs all some accounts are worth to collect them, and still the man owing it to them is persistent. It very often happens that the dinner in this particular is the best able to pay.
